NATURE OF VISIT	◯	New Consultation	◯	New Admission (for birthing services/BUCAS facilities)	◯	Less than 24H More than 24H	◯	Follow-Up
TYPE OF CONSULTATION	◯	Adult Immunization	◯	Animal Bite	◯	Child Care	◯	HIV
	◯	Child Immunization	◯	Child Nutrition	◯	Prenatal	◯	FP
	◯	Dental Care	◯	Injury	◯	Post-Partum		
	◯	General	◯	Sick Children	◯	Tuberculosis		

RISK ASSESSMENT (Part I. For BHWs, Midwives or Nurses)

VITALS SIGN

***BP (1st Encounter and reading): mmHg _____**	***BP (2nd reading): _____mmHg**	***BP (3rd reading):_____ mmHg**	***Average of 2nd and 3rd reading:_____ mmHg**

O_2 Sat: *	***HR/PR:**	***Normal Rate? Y / N**	***Regular Rhythm? Y / N**

***RR:**	***Temp:**	***Weight:**	***Height (kg):** ***Waist Circumference (cm):**	***BMI (Asian Pacific Standard): _____** *Weight (kg)/ height (cm)/ Height (cm) x 10, 000* ◯ Underweight <18.50 ◯ Normal Weight 18.50- 22.90 ◯ Overweight 23.00- 24.99 ◯ Obese 25.00 and above

CHIEF COMPLAINT:	
HISTORY OF PRESENT ILLNESS & REMARKS:	

***Comorbidities**	**History of heart attack, stroke, kidney problem** **If Yes, automatic high risk (>20%) from prior CVD or chronic kidney problem*	◯ Yes	◯ No
	History of heart attack/ stroke in first degree relative	◯ Yes	◯ No
	Hypertension	◯ Yes	◯ No
	If yes, taking medication?	◯ Yes	◯ No
	Diabetes Mellitus	◯ Yes	◯ No
	If yes, taking medication?	◯ Yes	◯ No
	High Cholesterol	◯ Yes	◯ No
	If yes, taking medication?	◯ Yes	◯ No

PRIMARY CARE HEALTH RISK ASSESSMENT TOOL

	Tuberculosis	◯ Yes ◯ No
***Current Smoker**		◯ Yes ◯ No
If yes:		◯ Tobacco Products ◯ Vaporized Products (e-cig and vape) ◯ Both
*Binge Drinking in the past year		◯ Yes ◯ No
*Moderate or haer physical activity for 150 minutes in a week, spread throughout the week with no more than 2 days apart		◯ Yes ◯ No
Intake of fruits and vegetables below five portions		◯ Yes ◯ No

***Non-Laboratory CVD risk % (from WHO / ISH risk chart) (circle)** **If total CVD risk is 10% higher (orange, red and deep red, refer to health facility for comprehensive risk screening and physician assessment*	**GREEN**	<5%	***Management**
	YELLOW	5% to <10%	Counseling on ◯ Healthy Diet ◯ Harmful Use of Alcohol ◯ Physical Activity ◯ Referred to PCF for Risk Screening ◯ Referred for BTI
	ORANGE	10% to <20%	
	RED	20% to <30%	
	DEEP RED	≥ 30%	Date of Next Risk Assessment :

***Assessed by** **Name and Signature**	***Verified by** **Name and Signature**

	Parity:			With Access to Family Planning Counseling	◯ Yes	◯ No
	Number of Full-term Pregnancy:					
	Number of Premature Pregnancy:					
	Number of Abortion:					
	Number of Living Children:					

FAMILY HISTORY

Does the patient have 1st degree relatives with:	◯ Asthma	◯ Cancer	◯ Mental Disorders
	◯ COPD	◯ Diabetes	◯ Others
	◯ Hypertension	◯ Kidney Disease	
	◯ Tuberculosis	◯ Peripheral Vascular Diseases	

SOCIAL HISTORY

Illicit Drug Use	Is patient illicit drug user	◯ Yes ◯ No	If yes, indicate type of illicit drug used:
Sexual Activity	Is patient sexually active	◯ Yes ◯ No	
	Partner	◯ Single ◯ Multiple	
	With protection	◯ Yes ◯ No	

PRIMARY CARE HEALTH RISK ASSESSMENT TOOL

*RISK ASSESSMENT (Part II. For Nurses or Doctors only)
*Does the individual have any of the following:
◯ Established angina pectoris, coronary heart disease, myocardial infarction, transient ischemic attacks, stroke, or peripheral vascular disease or have had revascularization or carotid endarterectomy
◯ With left ventricular hypertrophy (shown on electrocardiograph) or hypertensive retinopathy (grade III or IV)
◯ Without established CVD who have a total of cholesterol ≥8 mmol/L (320 mg/dL) or low-density lipoprotein (LDL) cholesterol ≥ 6 mmol/L (240 mg/dL) or TC/HDL- C ratio > 8
◯ Without established CVD who have persistent raised blood pressure (>160-170/100-105 mmHg)
◯ With type 1 or 2 diabetes, with overt nephropathy or other significant renal disease
◯ With known renal failure or renal impairment or on dialysis
If YES, automatic high risk (>20%) from having a cardiovascular event or have high levels of individual risk factor

*BP (2nd Encounter and 1st reading): _____ mmHg	*BP (2nd Reading):_____ mmHg	*BP (3rd Reading):_____ mmHg	*Average of 2nd and 3rd reading:_____ mmHg

*Does the individual have ALL classic symptoms of marked hyperglycemia?	*Urine Ketones	*Result:_____
• Polyuria		*Date Taken:_____
• Polydipsia	Total Cholesterol	*Result:_____ mmol/L
• Weight Loss		*Date Taken:_____
◯ Yes ◯ No		

*Random Plasma Glucose (RPG)	*Fasting Plasma Glucose (FPG)	*Basic Laboratory Tests for Confirmed Hypertensives *(Within 1 month from initial consult but should NOT delay initiation of treatment)*	
Result:_____ mg/dL	Result:_____ mg/dL		◯ 12- L ECG
Date Taken:_____	Date Taken:_____		◯ Blood test: Serum creatinine, eGFR, sodium, potassium, lipid profile , fasting plasma glucose
	Confirmatory FPG *(except for hyperglycemic crisis)*		◯ Dipstick urine test or urinary albumin/ creatinine ratio
	Result:_____ mg/dL		
	Date Taken: _____		

*Laboratory CVD risk % (from WHO / ISH risk chart) (circle)			*Management
	GREEN	<5%	
	YELLOW	5% to <10%	Counselling on ◯ Healthy Diet ◯ Physical Activity ◯ Tobacco Cessation ◯ Harmful Use of Alcohol
	ORANGE	10% to <20%	
	RED	20% to <30%	
	DEEP RED	≥ 30%	*Date of Follow-up:

*Medications	
a. Anti-hypertension ◯ Yes ◯ No a.1 If Yes: ◯ Out-of-Pocket ◯ Both PBF and OOP ◯ Provided by facility b. Oral hypoglycemic agents/ Insulin ◯ Yes ◯ No b.1. If Yes: ◯ Provided by facility ◯ Both PBF and OOP ◯ Out-of-Pocket	_____ *Physician's Name and Signature

PHYSICAL EXAMINATION FINDINGS

Skin Extremities Description	◯ Essentially Normal	◯ Cold Clammy	◯ Cyanosis	◯ Edema	◯ Erythema
	◯ Clubbing	◯ Pale nailbeds	◯ Poor Skin Turgor	◯ Itching	◯ Lesions

HEENT Description	◯ Essentially Normal	◯ Cervical Lymphadenopathy	◯ Pale Conjunctivae
	◯ Abnormal Pupillary Reaction	◯ Icteric Sclera	◯ Sunken Eyeballs
Chest Description	◯ Essentially Normal	◯ Crackles	◯ Decreased Breath Sounds
	◯ Asymmetric Chest Expansion	◯ Enlarge Axillary Lymph Nodes	◯ Lumps over Breast
	◯ Wheezes		
Heart	◯ Essentially Normal	◯ Heart Murmur	◯ Heaves
	◯ Displaced Apex Beat	◯ Irregular Rhythm	
Abdomen	◯ Essentially Normal	◯ Palpable Mass	◯ Hyperactive Bowel Sounds
	◯ Abdominal Rigidity	◯ Tenderness	

ALERT TYPE:	◯ Allergy	◯ Handicap	Description:
	◯ Disability	◯ Impairment	
	◯ Drug	◯ Others	

PRIMARY CARE HEALTH RISK ASSESSMENT TOOL

ANIMAL BITE:						
Anatomical Location:	◯ Abdomen	◯ Back	◯ Buttocks	◯ Neck	◯ Knee	◯ Nose
	◯ Chest	◯ Eye	◯ Foot	◯ Thigh	◯ Legs	◯ Ears
	◯ Forearm	◯ Hand	◯ Head	◯ Pelvic	◯ Mouth	Others:
Animal Type:	◯ Dog	◯ Pig				

	◯ Rat ◯ Cat	◯ Snake Others:	Description of Bite Event:		
Type of Exposure:	◯ Transdermal Bite	◯ Punctured Wounds	◯ Lacerations	◯ Avulsions	◯ Scratches/Abrasions with Spontaneous Bleeding
Wash Bite			**Date of Exposure:**		

*Name of Accompanying Adult: _____ Contact Number: _____Relationship to Patient: _____

PART I: GERIATRIC SCREENING QUESTIONS
Instruction: Ask the screening questions to the patient and check box (whether Yes or No) indicating their answers

A. MEMORY	**YES**	**NO**	**REMARKS**
Please repeat these 3 objects: Paper, Towel, Cup Remember the 3 objects because I will ask them again later			If YES, the patient is able to recall immediately after you read the 3 objects
B. DEPRESSION	**YES**	**NO**	**REMARKS**
Have you ever experienced the feeling of hopelessness or depression for 2 weeks or more?			If YES, counsel and refer to physician
C. MEDICATION	**YES**	**NO**	**REMARKS**
Are you taking four (4) or more medicines and/or Supplements?			If YES, refer to a physician if this has potential benefits or risk of harm
D. URINARY INCONTENENCE	**YES**	**NO**	**REMARKS**
During the last three (3) months, did you leak urine? 1. Even small amount? 2. When you cough, sneeze or exercise? 3. When you need to pee but could not go to the toilet? 4. Without sense of urgency or physical activity			If YES, indicate signs and symptoms of urinary incontinence, Counsel and refer to physician.
E. PHYSICAL FUNCTIONAL CAPACITY	**YES**	**NO**	**REMARKS**
Are you able to: 1. Change your clothes without assistance? 2. Take bath without assistance? 3. Eat your meals without assistance? 4. Move around the house without assistance?			If YES, it means the patient is in normal functional capacity, If NO, refer to the Physician
F. MEMORY	**YES**	**NO**	**REMARKS**
"What are the three objects I asked you to remember?" Ask the patient to complete 3-item recall in item 1. Paper, Towel, Cup			Refer to BOTH Memory 1 and 2 questions: If both memory 1 and 2 are YES, it means the patient can recall. If Memory 1 is YES and Memory 2 is NO or Both Memories are NO, counsel and refer to the physician
G. FALL	**YES**	**NO**	**REMARKS**
Have you fallen anytime in the last 12 months?			If YES, ask: 1. What were you doing before you fell? 2. How did you feel before and after going down? 3. What part of your body was hit? Counsel and refer to a Physician

PART II: GERIATRIC SCREENING TEST
Instruction: Conduct screening tests and indicate the results

A. RISK FOR FALLS		
1. Turn Up and Go Test 2. Functional Reach Test	___seconds indication: _____ ___inches indication: _____	A score of <12 seconds is normal A score of 8 inches is normal
B. NUTRITION		
Mid-upper arm circumference (MUAC) measurement	___cm indication: _____	A score of <22 cm may indicate at risk of malnutrition A score of >22 cm may indicate normal nutritional status of the elderly
C. HEARING TEST		
Whisper Test	R ear Indication: L ear indication: ____	Check of the patient successfully repeat 3 out of 6 number and letter combinations in the first and second attempts, then it is considered pass: Note: if the second attempt is unsuccessful, refer to the physician
D. VISION TEST		
Visual Acuity Test (Snellen Chart)	Unaided R Eye ___/___ L Eye ___/___ or Aided R Eye___/___ L Eye ___/___	20/20 indicate normal vision If visual acuity is 20/200 or worse, refer to the OPTHALMOLOGIST
Summary of Findings/Disposition	***Screened by:***	***Referred to:***
Counsel (Yes or No) Date of Return Visit _____ Refer to a Physician _____ Date of Referral:_____ Reason for Referral _____	Name and Designation of the Provider: _____ Name and Address of the Facility: _____ _____ Facility Contact details: _____ Signature of the Provider: _____
